

# ALL WAYS

Course Designer: John Kimball

**24 Rounds**

**START POSITION:** Standing in Box A with both hands on the barricade.

## Box A

Keeping both feet inside the box lean out around the barricade (either side) and double-tap each cardboard target: Mandatory reload from behind cover, then lean out around the barricade (either side) and double-tap each cardboard target again **using right-hand only**.

## Box B

Keeping both feet inside the box lean out around the barricade (either side) and double-tap each cardboard target: Mandatory reload from behind cover, then lean out around the barricade (either side) and double-tap each cardboard target again **using left-hand only**.

**Notes:** Each target must have no more than 4 hits; all extra hits will result in a 10-second penalty. Failure to remain behind cover during reloading will result in a 10-second penalty (for each reload not done under cover). Painted areas of cardboard targets are considered to be behind hard cover – any hits in these areas do NOT count for score.
