

BARRELS OF FUN 1

Course Designer: John Kimball

17 Rounds

START POSITION: Standing in Box A with your hands hanging at your side.

Box A

With both feet inside the box, single-tap both cardboard targets; knock-down the steel popper; then single-tap both cardboard targets again.

Box B

With both feet inside the box, double-tap the closest cardboard target and then knock-down both steel poppers; and finally double-tap the remaining cardboard target.

Barrel

Kneel, sit or lay so that you shoot from below the bar on top of the barrel to double-tap all three cardboard targets (in any order).

Notes: Each hit on a no-shoot target will result in a 10-second penalty. If a competitor is unable or unwilling to get down low enough to shoot from below the bar on top of the barrel they will receive a 30-second penalty (10-seconds per target).
