START POSITION: Standing in the doorway with both hands on the wall at shoulder height and with gun holstered.

From the doorway, single-tap targets 2, 3, 4, and 5; then single-tap each of them again; finally lean out from each side of the walls to double-tap targets 1 and 6 in any order

Notes: Firing a second shot into targets 2, 3, 4, and 5 before all four have been hit once will result in a 10 second penalty for each double-tap. When leaning out from the walls both feet must remain behind the wall: Stepping beyond the wall will result in a 10 second penalty for each shot fired. Painted areas of targets are behind hard cover so no hits in this area will count for score. If any target has more than 2 hits, the best 2 will count for score.
