Box 1
Table 1

20 Rounds

START POSITION: Standing in Box facing downrange with both hands on the table.

Box

From the box knock down both steel poppers (which are behind HARD cover) and double-tap T1 and T2: These 4 targets can be shot in ANY order. Then, while moving from right to left and staying behind the fault line on the ground, double-tap the remaining targets (T3 thru T9) as they become visible.

Notes: Each cardboard target must have at least 2 hits; if more than 2 hits are present the BEST 2 will count for score. Crossing the fault line will result in a 10 second penalty each shot fired from over the line. Painted areas of cardboard targets are considered to be behind hard cover – any hits in these areas do NOT count for score.
