

JUDGE ROY BEAN

Course Designer: John Kimball

20 Rounds

START POSITION: Sitting at the table with the gavel in your strong hand and your handgun lying on the table.

From behind the table, double-tap targets T1 and T2 then knock-down the steel poppers PP1 and USP1. Then move to your left engaging each additional target as it becomes available. Targets T7 and T8, plus steel plates P1 and P2 must only be engaged from the doorway.

Notes: Each cardboard target must have at least 2 hits; if more than 2 hits are present the BEST 2 will count for score. Painted areas of cardboard targets are considered to be behind hard cover – any hits in these areas do NOT count for score.

WAVE UP JACK
