

PUCKER FACTOR

Course Designer: Russell Cluver

8 Rounds

START POSITION: Standing in the Box with both hands relaxed at your side and your gun holstered.

Single-tap each target starting from the closest to the furthest; then single-tap each target again, starting from the closest to the furthest.

Notes: The painted area of targets are behind hard cover so no hits in this area counts for score. Double-tapping any target before all targets have been hit once will result in a 10 second penalty per double-tap. If any target has more than 2 hits, the best 2 will count for score,
