

# ROOM CLEARING - 4 ROOMS

Course Designer: Larry Del Pizzo

**24 Rounds**

**START POSITION:** Facing the wall with both hands relaxed at your sides

Each room will have up-to 5 targets which may be all shoot, all no-shoot, or a combination of the two.

From concealment behind the wall, shooter will double-tap the appropriate targets in the first room, then move down the hall to the opening for the next room. Again firing from concealment, shooter will double-tap the appropriate targets in each successive room. Each hit on a no-shoot target will result in a 10-second penalty. Failure to shoot from concealment will result in a 10-second penalty for each room being cleared.
